Data Privacy Statement

Thank you for visiting our website and for your interest in our company and our services. The protection of your privacy is very important to us.

This is why we don't collect any personal data and we don't use any cookies, social media plugins or web-tracking tools on our website.

E-mail

If you wish to contact us via e-mail, we would like to inform you that we are unable to guarantee the confidentiality of the information supplied. Third parties can see the content of e-mails that is not encrypted. We recommend that you send us confidential information exclusively via post. Your e-mail address will be used exclusively for correspondence with you. It will not be used for other purposes or passed on to third parties.

Liability for linked contents

Our website contains links to other websites. We have no influence on how the providers of the linked websites handle the information provided on these pages. Insofar as the collection, processing or use of personal data is linked to the use of websites of other providers, please note the data privacy statement of the respective provider. If you have any queries about this, please contact the third party directly. We are not responsible for the compliance with data protection regulations or the content of these websites.

Right to information

Your trust is important to us. You have a right to information about the personal data saved, their origin and recipients and the purpose of their storage. You also have the right to correct, block and delete any incorrect data. In the case of data requests, if you have any queries which this data privacy statement was unable to answer or if you require any additional information, please feel free to contact our data privacy officer at any time.

Changes in this data privacy statement

We reserve the right to change this data privacy statement at any time observing the data privacy regulations. These changes will be published here. Current status: May 2018.

Data protection – Hosting / Web server

If you access our website the host's web servers automatically record information. We have no influence on this. Please contact the host directly for more information

T-Online Hosting
Deutsche Telekom AG, Products & Innovation
T-Online-Allee 1

hosting@telekom.de

The information recorded is normally of a general nature - mainly for system security purposes. This includes the type of web browser, the operating system used, the domain name of the internet service provider, the connection data of the computer used (IP address), the website from which you are visiting us (referrer URL), the pages you visit on our website and the date and duration of the visit.

Below we will explain which information is recorded during a visit to a website and how it could be used.

As said before, we ourselves don't use any of these techniques.

Personal Data

Personal data are individual data about personal or factual circumstances of a specific or identifiable natural person. These include information like your name, your address and your telephone number, for example.

Collection and processing of personal data

When you access websites web servers automatically record information of a general nature – mainly for system security purposes. These include the type of web browser, the operating system used, the domain name of the internet service provider, the connection data of the computer used (IP address), the website from which you are visiting the website (referrer URL), the pages you visit and the date and duration of the visit.

Analysis of the data

It is generally not possible to draw conclusions about specific people from these data. The data are deleted after a statistical analysis. These data are not pooled with other data sources.

Additional personal data like name, address, telephone number or e-mail address are not recorded.

Use of cookies

Some websites use cookies, which serve to make their internet presence more user-friendly, secure and efficient – to accelerate navigation on the platform, for example. Cookies also enable the users to measure the frequency of page views and general navigation, among other things. Cookies are small text files which are deposited in a

computer system. Some of these cookies can then be transferred to your computer system. These are mainly so-called "session cookies". These are characterized by the fact that they are automatically deleted from the hard drive at the end of the browser session. Other cookies remain in your computer system and enable the recognition of your computer system on the next visit (so-called permanent cookies). You can of course refuse cookies at any time if your browser allows this.

The Help function of most web browsers explains how you can set the browser not to accept any new cookies, how you can let the browser notify you when you receive a new cookie or also how you can switch off all cookies received. You can switch off or delete similar functions like flash cookies, which are used by browser add-ons, by changing the settings of the browser add-on or also via the website of the provider of the browser add-on.
